**Full Name:**

**Pronouns:**

**Age:**

**Email:**

**IG (If any):**

**Year of Graduation:**

**CVM Attending:**

**Current Track/Species Focus:**

**Planned/Scheduled NALE Test Date:**

**Last NAVLE test date:**

1. (JUST FOR FUN!) You are presented with Suzie. She is a 6-year, F Lab retriever with vomiting, inappetence and lethargy for the past 3 days. Stool is still formed and has no blood in it. She is known to eat things per the owner, and her belly is distended. Labwork is unremarkable and reveals an elevated BUN and Creatinine (mild), USG:1.030 a severely high leukocytosis and neutrophilia. Please list below YOUR three top rule outs:

---

---

---

2. Receiving an insufficient score regarding what you have worked so hard for can be very upsetting. What challenges did you face when preparing for your first exam? What have you changed with your study habits in preparation for the upcoming exam.
